

WINNIPEG CONSTRUCTION ASSOCIATION EDUCATION PRESENTS

NEW WCA SEMINAR

“MINIMIZE YOUR RISK BY USING CCA STANDARD SUBCONTRACTS”

1/2 Day Seminar

Friday, November 20, 2009

Subcontractors and General Contractors alike often struggle with the creation and use of sub contract documents. Everyone in the construction industry can benefit by ensuring that subcontracts minimize the risk to both parties through using industry standard subcontract documents.

CCA has developed a subcontract template that can mitigate risk, provide balance and help any project run smoother.

WHAT YOU WILL LEARN

- The advantage of using standardized subcontracts.
- An explanation of the different parts of a standard subcontract.
- How to effectively use standardized subcontracts.
- Common mistakes and areas to watch for.
- Actual completion in class of one standard subcontract to apply practical skills.
- How to obtain standard subcontract documents.

Fax to: 783-6446

WHO SHOULD ATTEND??

- Sub Contractors
- General Contractors
- Project Managers
- Project Coordinators
- Estimators for Trade Contractors

EMPHASIS WILL BE PLACED ON THE SUB CONTRACTORS.

This session will be presented by a local instructor with experience in commercial, industrial and residential construction projects. If you are a subcontractor, or general contractor who subcontracts portions of your work—you need to attend this seminar.
