

NEW! "LEED For Sub Contractors" Understanding the Paper Work! And Getting it Right!

A BRAND NEW Education Session for **Winnipeg Construction Association MEMBERS**
Developed in cooperation with the Education Committee of the
Manitoba Chapter of the Canada Green Building Council
(sponsored by WCA Manufacturers & Suppliers Division)

Sub Contractors, Manufacturers and Suppliers often struggle with understanding their vital role in successful LEED projects. There are some very specific requirements for material handling and documentation which you need to follow and plan for.

This session will be presented by local Prime Contractors with first hand knowledge of LEED projects and experience with problems related to trade and supplier specific responsibilities. If you are a subcontractor or supplier to a LEED project—you need to attend this seminar.

WHAT YOU WILL LEARN:

- Waste management plan
- Site set-up
- Waste Bin Options
- Material Selection
- Specific Documentation requirements
- Use Letter Templates
- Sample documentation
- Indoor environmental quality requirements

WHO SHOULD ATTEND ?

- Sub-Contractors
- Product Manufacturers and Suppliers
- Project Managers/Coordinators
- Estimators for Trade Contractors
- **Emphasis will be placed on sub contractors**
