# TECHNICAL BULLETIN

Prepared jointly by the Manitoba Association of Architects and the Winnipeg Construction Association, intended as guidelines to increase awareness of recommended industry practices.

## Technical Bulletin #4

Original: November 21, 1980

Deleted as of December 24, 2001

### Subject: Granular Fill Materials

On the recommendation of the Joint MAA/WCA Standard Practices Committee to the Manitoba Association of Architects and the Executive of the Winnipeg Construction Association, we have rescinded the publication of this Bulletin and the Technical Data on the gradation and classification of granular fill materials.

The Committee places the responsibility for the material specifications on the tender calling authority and their design consultants.
